## Principal's Message

February 1, 2021

Happy New Year Warrior Parents & Guardians!

We have started 2021, the second half of the 2020-2021 school year, with a very quick turn around. On January 4 we entered the campus with kids and on campus learning lasted one day!

We're back again in February, with our campus open after a three-week hiatus. Warriors have definitely learned to be resilient. Our concerns now are those students we don't know where they are—they are not logging in or appearing on campus. This is apparently a nationwide concern.

New Orleans Public Schools have initiated the following efforts to get these students back to school. This information will be coming from our counseling department, per the directive of the District Superintendent Dr. Henderson Lewis, Jr.

### Steps to Locate Truant Students

1. A letter was sent home to parents from our school's counseling department (Mrs. M. Aziz).
2. Referral to Orleans Parish Schools, office of Student Support and Attendance will be made by FCWCS regarding those families receiving the letters.
3. If no changes are made by the family (sending students to school or taking advantage of distance learning), parents and students will be referred to Orleans Parish Juvenile Courts.

Thanking you in advance for getting your child back on track.  
—Kelly S. Batiste, Principal

## **Professional Development Days-- Ever Wonder What Goes On?**

All students deserve the best teachers, all the time! Teaching is one of those few professional careers that collaboration and growth is important, but difficult during the school day.

Great teachers inspire and can be considered an influencer that will reach through the decades in the life of a child. Professional Development (PD) provides the opportunity for new and seasoned teachers to develop. It provides an opportunity for educators to train and collaborate with each other, something that the normal school day could not provide.

Veteran teachers and rookies alike benefit. These PD days provide opportunities for teachers to learn from each other. According to edutopia.com, (a non-profit educational website owned by the George Lucas and Steve Arnold Foundation) states that "Ongoing professional development keeps teachers up-to-date on new research on how children learn, emerging technology tools for the classroom, new curriculum resources, and more. The best professional development is ongoing,

experiential, collaborative, and connected to and derived from working with students and understanding their culture."

Simply put, on PD Days we met to learn new things, find out what resources will assist us in the classroom to get the lessons across and of course to keep current on the importance of technology in today's world of teaching.

I don't think anyone would question the need for the last one involving technology in this world of teaching and learning during a pandemic.

Some of today's topics were: Social Studies Predication Protocols, Science Providing Instructional Supports, NOLA-PS Follow Up Audit for our Special Education Department, Dibels Testing, Culturally Responsive Pedagogy, ELA Planning Instructional Scaffolds, Math Providing Instructional Supports, Really Great Reading Data Review.

**Our last Professional Development Day for 2020-2021 is scheduled for Friday, March 26th. ###**

Professional Development Friday is a hard working day for staff members at FCWCS. Pictured are the educators of the kindergarten team reviewing data

regarding Dibels assessment for reading. Pictured are (l to r) Educators Robinson, Harrell, Eugene, and Vigne.

### Use Acts of Kindness to Stay Connected with Family & Friends this New Year!

The start of a new year, although joyous and a sense of a fresh start, can also be difficult and lonely—and this year is no exception!

Many of us will not be able to spend this new year with our loved ones, but that doesn't mean we can't **spread love and kindness** to our family, friends, and anyone else who needs it.

But how can we share warmth and good feelings from a distance? Thanks to technology, you can brighten up someone's day from nearly anywhere in the world. A simple phone call is always a good option, but there are other creative ways to stay connected and **spread cheer to friends, family, and strangers**.

Check out our list of 10 inventive ways to spread

kindness during these early days of the new year.

1. Create a Family/Friend Scrap Book;
2. Drop off Flowers;
3. Encourage mediation and deep breathing;
4. FaceTime with older generations;
5. Send a motivational text;
6. Host a virtual movie night;
7. Run errands for a neighbor;
8. Write a letter;
9. Share recipes and send snacks;
10. Start a virtual book club.

**FYI (for your information) . . .**

**What body temperature will warrant a student or adult's removal from school?**

Any student or adult entering the building must have their temperature taken. **Anyone having a temperature of 100.4° will not be allowed on campus.**

Employees will return home. Car riders will return home with their parents (that's why their temps are taken **before** their parents leave the campus).

Bus riders temps are taken upon entering the building. If the temperature is 100.4° or greater, **they are placed alone in the isolation room** and the temperature is retaken in 30 minutes with another type of device. They will be asked if they have been in contact with anyone has had a fever, were coughing, etc., (hopefully, the answer will be no). **If it is still high, parents will be notified and they will have to come and pick them up immediately.** Students will have to remain home until the fever subsides.

*(That's Mrs. C. Lewis and Mr. D. Bray checking temperatures in the morn car pool line).*

## American Heart Month

February is known as American Heart Month. Cardiovascular disease affects over 17.5 million Americans. Heart Month is meant to remind everyone that their health and their hearts come first. The first step is to make healthier choices and to exercise regularly. Try to eat an overall healthy dietary pattern that focuses on:

- 1) A variety of fruit and vegetables
- 2) Whole Grains
- 3) Fat free (skim) and/or low fat (1%) milk
- 4) A variety of fish that contain Omega - 3 fatty acids
- 5) Limited saturated fat, trans - fat, red meat, and sugar and sweets

It's also important to limit your cholesterol and salt intake when emphasizing good heart health. Choose foods with little to no added salt and aim to intake no more than 2,400 milligrams of sodium per day. Starting on the Dash Diet will help with lowering your sodium intake and allowing for greater overall heart health. Lastly, try to exercise for at least 150 minutes of moderate physical activity or 75 minutes of vigorous physical activity each week to maintain good heart health.

## February is National Cherry Month

February is national cherry month. Cherries are a great 100 calorie snack with less than a half gram of fat per serving. They are rich in antioxidants, which help to prevent cancer and heart disease. Cherries contain melatonin, which helps the brain to regulate sleep cycles better. Cherries have an abundance of anthocyanin. Cherries are also rich in boron, which helps increase bone health with the help of magnesium and calcium.

## Enrichment Classes are part of every Warriors Day!

Administration has made every effort to keep as many of the school's offerings the same for our scholars and that includes our fantastic offerings in the area of enrichment—computer literacy, visual art, instrumental and

vocal music and physical education. Parents should use their student's Google Classroom STREAM and CLASSWORK to keep apprised of the child's academic undertaking.

Computer Literacy class with Ms. Smith is from 10-11 am for Mrs. Bercy's 1st Graders! Students are enjoying [storylineonline.net](http://storylineonline.net)

### THE INVISIBLE SUITCASE

Hello,

I am sure we are all familiar with trauma informed care and how important it is in the work we do. 26% of children in the United States will witness or experience a traumatic event before they turn four. This means that our students are bringing this stress with them to school every day in their invisible suitcase. A main goal when working with teachers and school staff, is to help them realize this. This month's issue will focus on ways to educate teachers and ourselves about practicing trauma informed care.

### WHAT IS TRAUMA INFORMED CARE?

What is trauma-informed care? It's a support and service delivery framework in which people are never labeled as problems. Instead, it recognizes people are probably dealing with stressful and traumatic experiences. These experiences shape their behaviors and threaten their physical, mental, and emotional health.

It starts with safe relationships between students and school personnel. Trauma can take a heavy toll on students' abilities to form strong, healthy, long-term relationships with other people. But when they experience such relationships consistently with teachers and other adults at school, they can start to heal.

These relationships directly contribute to students' resilience. Trauma sensitive teachers approach students with a warm and

unconditional, positive regard in order to nurture students' relational capacity and emotional growth.

### This is why the school has invested in TumbleBook Library!

Have your Warrior (Pre-K through 8) spend about 20 minutes of their day reading/listening at [tumblebooklibrary.org](http://tumblebooklibrary.org).

Access it from the “splash page” of the Google Chromebook (first page that appears when you log on). You will not need to input a username or password from this location or device. If you are using a device other than the school's Chromebook, you will need to input the username and password. We can't print it here because the WN appears on the school's website. The subscription is about \$800. per year and we are not willing to share it with anyone who happens upon this newsletter!

Reach out to your child's teacher or tech support for this information. ###

### Our bus service is provided by **B & L Transportation.**

This vendor was our provider during the 2019-2020 school year. Our busses this year will be marked C.L.A.S.S. (Community Leaders Advocating for Student Success). Ms. Sisco will field questions regarding any transportation concerns @ 504.444.1063. ###

Our **school culture** teaches that ALL Warriors are: PROMPT, POLITE, PREPARED, and PRODUCTIVE! We call these the **4Ps!!!** Please encourage this behavior at your home!

### Mission Statement of Fannie C. Williams Charter School

The mission of Fannie C. Williams School is to achieve the highest academic success through collaboration of staff, parents, and community. ###

### Educating Children Continues On . . . is your child present?

We wish all students would show up for in school or distance learning like these young folks in Mrs. Bercy's 1st grade class. The superintendent and the Mayor recently held a present

conference regarding the district's 76 public schools. We are asking parents to see to it that their child(ren) are taking part in school daily—whether they are distant learners or on campus. The city is currently experiencing a 84% truancy rate in New Orleans. Pre-pandemic it was at about 90%. ###
